Description: Enable-NK™ Activate is cell culture media for the ex vivo activation of human Natural Killer (NK) cells after they have been optimally expanded using Enable-NK™ Grow. Please note that Enable-NK™ Activate can also support NK cell expansion, although the best expansion results will be achieved with the use of Enable-NK™ Grow before the use of Enable-NK™ Activate. It is xeno-free, and is available devoid of animal-derived products. Please refer to the Instructions for Use.
